Applications are now being accepted for the Los Angeles Biomedical Research Institute Summer Fellowship Program for Los Angeles County High School Seniors. Spend the summer working with leading biomedical scientists. This annual program is designed to encourage graduating high school seniors to explore careers in the field of biomedical science. Selected students will work in biomedical research laboratories and groups assisting with research in areas such as:

- Biochemistry
- HIV Medicine
- Nutrition
- Cancer
- Infectious Diseases
- Obstetrics & Gynecology
- Cardiovascular
- Kidney & Liver Diseases
- Pediatric Diseases
- Dermatology
- Genetic Disorders
- Perinatology/ Neonatology
- Diabetes
- Molecular Biology
- Psychology/ Psychiatry
- Endocrinology/ Hormones
- Neuroscience
- Respiratory Diseases

Please note: If selected, you MUST work around the program schedule when making arrangements for college tours/orientations and vacations. Failure to do so will result in the dismissal from participation in the 2014 Summer Fellowship Program.

**Dates:** Monday, June 16th through Friday, August 8th, 2014  
**Hours:** Full-time, Monday through Friday  
**Stipend:** Fellows will receive a stipend of $2,160  
**Deadline:** Complete applications must be received by Friday, March 14th, 2014  
**To Apply:** See your Science Department Chair or Career Counselor or visit us at: [www.LABioMed.org](http://www.LABioMed.org) — Training and Education — Summer Fellowship Program
